Aim: Design simple application for accessing the data using XML

- Implemented XML with Document type definition.

Code:

```xml
<?xml version="1.0"?>
<!DOCTYPE employee SYSTEM "employee.dtd">
<employee>
 <firstname>vimal</firstname>
 <lastname>jaiswal</lastname>
 <email>vimal@javatpoint.com</email>
 </employee>

<!ELEMENT employee (firstname,lastname,email)>
<!ELEMENT firstname (#PCDATA)>
<!ELEMENT lastname (#PCDATA)>
<!ELEMENT email (#PCDATA)>
```
